## Garden Notes

## **GREETINGS! To our many Friends, from far and near:**

We are standing on the threshold of our fourteenth year in business. We want to thank each and every one of you for the splendid support that has made this progress possible. However, due to the world's grave situation, and the rising costs that meet us on every side, we are not issuing a complete catalogue. In other words, those of you who have our 1950 catalogue, save it for future references, or, if you do not have one, then send for your copy, we still have a few copies on hand. In this Supplementary List, we are listing a few new perennials that we feel sure you will be interested in.

In the year just passed; as a few of you know, and many who do not know, that the Founder of the Gardens, my Mother, who was known as Mrs. F. E. Stump, passed away on May 10, 1950. However, my Aunt, is staying on with me, and we are going to continue the gardens, and so want to thank you for the wonderful patronage given us in the past, and assure you we have appreciated it greatly.

Several years back, we had the privilege of introducing several of the dwarf phlox by Mr. J. Herbert Alexander, of Middleboro, Massachusetts. This year, we have the pleasure of introducing two of his Hibiscus, or Mallows as they sometimes are called. The two, we are introducing are noted for their richly colored flowers of immense size and extreme earliness.

We are growing a number of the better named varieties of Hemerocallis in our test gardens, and if they prove worthwhile, we will eventually list them.

Visitors are always welcome. Our Gardens are located at Fremont, Nebraska, on East Military Avenue; one-half mile East of City limits; the first house East of Garden City School on South side of the highway. Come and enjoy our flowers. It is always a pleasure to show them. Cut flowers sold in season.

Terms—Please note, that Cash must accompany all orders from parties unknown to us. Remittance may be made by postal or express money orders; bank drafts; or personal check. On orders amounting to less than \$2.00 kindly add 35c to cover postage and packing charges. All orders \$2.00 and over, we prepay all charges. We will ship by parcel post, unless otherwise desired. **FOR LOCAL ORDERS ONLY. ALL ORDERS, \$1.50 and over, WE DELIVER. PHONE 701W.** For further information see our 1950 Catalogue. We regret that we are unable to ship orders into the States of Idaho, Montana, New Mexico, Utah and West Virginia, due to, too much red tape.

We have two and one-half acres in Perennials and Ornamentals and 125 sq. ft. of glass, composed of two small cool greenhouses attached to our residence; which makes ideal conditions for the propagation of Mums, Buddleias; Carnations; etc. All stock is State Inspected.

Plant flowers along your pathway  
Grow flowers around your door.  
Have them inside your window pane  
When winds of winter roar.  
Exchange them with the neighbor  
Give them to a friend.  
Buy them from your flower girl  
Who grows them for that end.

## HIBISCUS

We are proud to present two of Mr. J. Herbert Alexander's outstanding varieties of Hybrid Hibiscus.

### Alexander's Dwarf (Alexander)

A very rich brilliant, crimson-red Hibiscus, that is most outstanding in color, besides being the first real dwarf in the hybrid Mallows. It grows into very compact plants, 3½ to 4½ feet tall, so is ideal for the rear of the perennial garden or for massed groups. Very free flowering, strong grower, and very showy. A must have.

Each 75c; 3 for .....\$2.00

### Betsy Ross (Alexander)

The earliest of all Hibiscus to blossom, usually a week or ten days earlier than any other variety. It is particularly desirable where showy flowers are desired in August and September. Withstands strong winds, with flowers 7-8 inches in diameter; or about 20 inches in circumference. Imagine such gigantic flowers of pure waxy white with a rich deep crimson eye! Another must have.

Each 75c; 3 for .....\$2.00
